Build and operate infrastructure sustainably

Indicators / KPIs for the Zurich site

Field of action	Indicator	Targets / KPI
Circular construction	Share of non-renewable primary raw materials	Make measurable, 50% by 2030
Responsible water management	De-icing treatment (share of treated hydrocarbons)	min. 95%
Waste reduction	Material recycling	Steady increase, 50% by 2030
Stabilisation of air quality	Annual mean at NO_2 monitoring station	Less than 30µg/m^3
Preservation of biodiversity	Biodiversity measures in the developed area	Enhancement through projects in the developed area

Reduce greenhouse gas emissions

Indicators / KPIs for the Zurich site

Field of action	Indicator	Targets / KPI
Net zero for own greenhouse gas emissions by 2040 according to reduction pathway	GHG emissions Scope 1 & 2	Steady reduction of CO2e emissions according to reduction pathway
Low-emission procurement	GHG emissions in procurement, relative reduction vs. reference product/service	Weighting of ecology in the procurement process and use of supplier database
Reduction of aircraft GHG emissions	APU emissions	Steady reduction through requirements on APU use & PCA at further stands
	Business travel emissions (substitution with SAF)	(Nearly) net-zero business travel emissions
	Use of SAF in global aviation and availability on the fuel market	Advocacy for framework conditions to scale SAF, partnerships to promote SAF
Reduction of direct GHG emissions of airport partners from fuel consumption	GHG emissions of airport partners	Steady emission reduction, provision of EV charging stations & HVO offering
Compliance with modal split for access and egress traffic	Modal split	Compliance with the modal split target, commitment to public transport connections / bus charging infrastructure

Reduce noise

Indicators / KPIs for the Zurich site

Field of action	Indicator	Targets / KPI
Reduction of noise emissions at night	Implementation of punctuality measures according to the defined Zurich Strategy Board roadmap	Roadmap implementation status “on track”
Implementation of noise protection measures	Number of properties with implemented noise protection measures per reporting year	200 properties in 2027, thereafter a new target value to be defined under the new noise protection programme

Create value for the region

Indicators / KPIs for the Zurich site

Field of action	Indicator	Targets / KPI
High-quality visitor offerings	Overall visitor satisfaction	Make satisfaction measurable and derive measures
Regional procurement	Share of regional suppliers, measured by procurement volume in value terms	Target value of 80%
Exemplary vocational training company	Number of apprenticeship occupations	Ongoing training in 14 different apprenticeship occupations
Corporate citizenship	Evolving regional sponsoring into regional engagement	Implementation of the concept newly developed in 2026

Coduct business fairly and responsibly

Zurich site

Field of action	Indicator	Targets / KPI
Procurement: establish human rights due diligence in the procurement process	Share of suppliers, measured by procurement volume in CHF, that were screened against social criteria	Define metric and establish screening
Establish human and labour rights due diligence across the Group	Due diligence measures implemented	Implementation of due diligence measures
